- ☑ Lighting
- ☑ Chat
- ☑ View Button & See More People

1. Mute

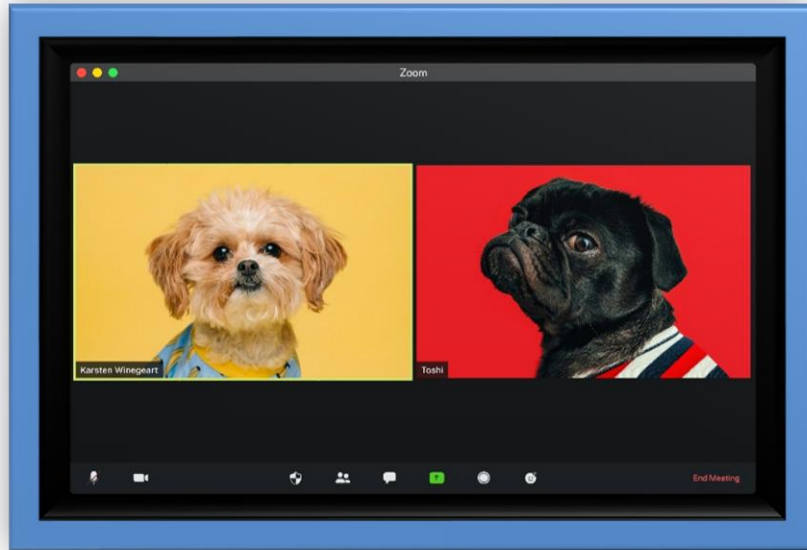

Keeping your microphone off makes sure everyone can hear the speaker.

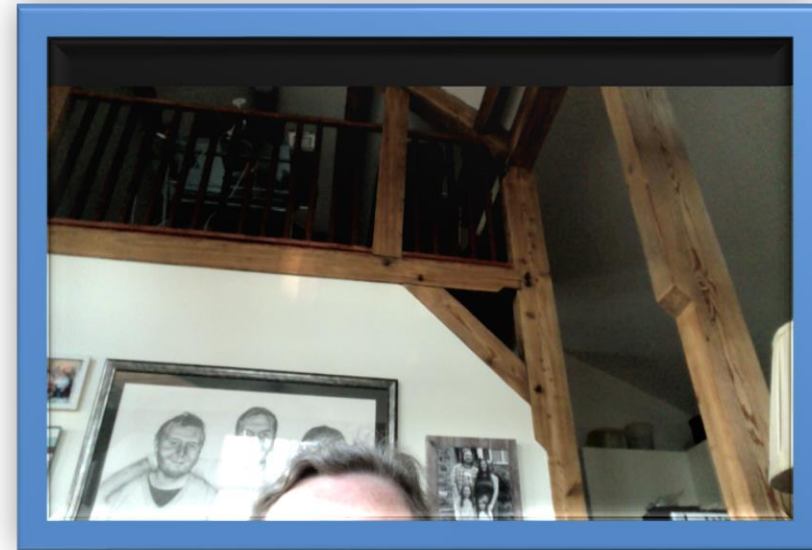

Turn your microphone on when you want to talk.

2. Camera Off/On & Pointing

Turning your camera on helps other people get to know you better.

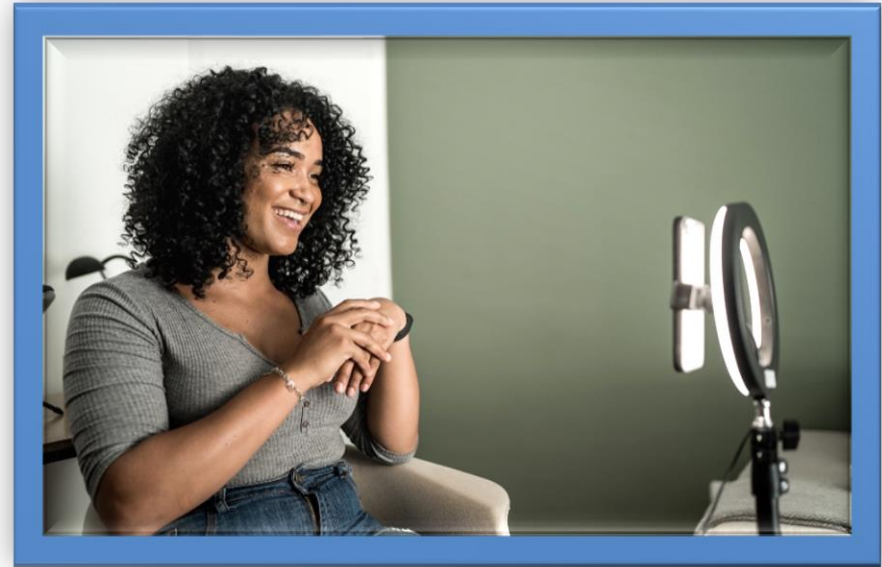

Set your camera up so people can see your whole face and not the top of your head!

3. Lighting

It is important to have light so people can see you when you are on camera.

Having a light in front of you and no light behind you makes you look your best.
